Class 9: Computer hardware; computer software; central processing units (CPU); integrated circuits;

microprocessors; microcontrollers; semiconductors; modems; sensors; battery chargers; accelerometers; applications processors; computer hardware accelerators; circuit boards; circuit board assemblies; data conversion circuits; data storage devices, namely transponder chips and tags and card packages containing same; development boards, evaluation boards and reference design kits for semiconductors, sensors and software; digital signal controllers; digital signal processors; direct digital synthesizers; earbuds; electronic access cards; electronic identification cards; electronic labels, electronic stickers and electronic tags for identification and security purposes; electronic tickets; electronic wristbands; headphones; high power electronics, namely radio frequency (RF) amplifiers, high side switches and battery sensors; microcircuits; microcomputers; mobile phones; near field communication (NFC) technology-enabled devices; radio frequency transistors; user interfaces for electronic devices; wireless communication devices for recording, organizing, transmitting, receiving, manipulating, and reviewing voice, text, data, image, and audio files; computer

hardware, software and firmware, central processing units (CPU), semiconductors, integrated circuits, microcontrollers, and computer hardware; computer software; central processing units (CPU); integrated circuits; microprocessors; microcontrollers; semiconductors; modems; sensors; battery chargers; accelerometers; applications processors; computer hardware accelerators; circuit boards; circuit board assemblies; data conversion circuits; data storage devices, namely transponder chips and tags and card packages containing same; development boards, evaluation boards and reference design kits for semiconductors, sensors and software; digital signal controllers; digital Signal processors; direct digital synthesizers; earbuds; electronic access cards; electronic identification cards; electronic labels, electronic stickers and electronic tags for identification and security purposes; electronic tickets; electronic wristbands; headphones; high power electronics, namely radio frequency (RF) amplifiers, high side switches and battery sensors; microcircuits; microcomputers; mobile phones; near field communication (NFC) technology-

enabled devices; radio frequency transistors; user interfaces for electronic devices; wireless communication devices for recording, organizing, transmitting, receiving, manipulating, and reviewing voice, text, data, image, and audio files; computer hardware, software and firmware, central processing units (CPU), semiconductors, integrated circuits, microcontrollers, and analysis and trace, all for use in the development of stand-alone software programs used in devices such as network switches, engine control modules, cat-scan machines, industrial automation controllers, avionics and wireless handsets; computer hardware and computer software based development tools, namely, compilers, debuggers, integrated development environments, run control, event analysis and trace, all for use in the development of stand-alone software programs used in industrial, consumer and automotive applications; computer hardware and computer software for transferring, storing, converting and displaying medical device data; computer hardware and software for creating, programming, controlling, encoding, scanning, reading and interpreting RFID and NFC chips and tags;

computer software for charging smart phones, tablets, and mobile electronic devices; computer software for enabling functionality of safety and testing systems, apparatus and equipment; computer software for enabling functionality of sensors for use in automotive, consumer, industrial and medical applications; computer software for managing computer networks; computer software for tracking; computer software, hardware and chipsets for use with wireless communication apparatuses, consumer electronic devices, smart phones, digital cameras, IP cameras, drones, unmanned aerial vehicles (UAVS) and wearable mobile computers; computer peripherals for processing digital signals, for processing background data and information on computer operating systems, for tracking user activity and location, for enabling activation by speech and touch and for detecting sensory cues and launching applications that correspond to specific sensory cues and computer software, hardware and chipsets for use with these goods; computer software, hardware, and chipsets for streaming music and for synchronizing audio speakers in consumer electronics

devices; computer software, namely compilers, linkers, support software to assist in the development of stand-alone programs, and software for assisting in the development of object oriented software applications, such as database systems; computer software, namely operating systems, board support packages (BSPS), virtualization technology software, hypervisor software, embedded software, applications programming interface (API) software, software libraries used to create other computer software; applications software for automotive, consumer, health care, medical, aerospace, military, cellular and mobile communications, networking, motor control, smart energy, and industrial applications, protocol stacks, configuration software, and optimization software; content filtering software, namely, computer software for controlling content made available to a user; control plane software; data plane software; data processing apparatus and software for enabling, controlling, managing and monitoring all aspects of a paperless payment and/or access system employing RFID (radio frequency identification) and/or NFC (near field communication) technology, including

allowing users to recharge their payment accounts remotely; deep packet inspection software; downloadable computer software for developing computer hardware and software for chipsets for wireless devices; enterprise security software for use in gateway and other networking devices to provide network security; firewall software; integrated networking, security, and collaboration software; internet security software; intrusion detection and prevention software; load balancing software; VPN (virtual private network) operating software; integrated circuits, computer hardware and software for signal processing in wireless communication apparatuses, consumer electronics devices, portable media devices, mobile gaming devices, pocket computing devices, and smart phones; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers; recording discs; computer network interfaces devices; electronic, electro technical and electromagnetic modules; data processing equipment; data storage apparatus; interfaces for computers; smart cards; smart card integrated circuits; RFID chips and tags; computer hardware and software for creating,

programming, controlling, encoding, scanning, reading and interpreting RFID chips and tags; contactless smart cards; dual interface smart cards; dual interface integrated circuits that provide a link between contactless cards and contact cards; writers and readers for wireless transmission to and from transponder chips; electronic apparatus for writing and reading of wireless transmission to and from transponder chips; computer programs for controlling transmission of data to and reading of data from transponder chips; data processing machines for fare determination using transponder chips; encoded smart cards; computer hardware, software and peripheral devices used for access control and authentication purposes; wearable activity trackers; wearable computer peripherals; smartphones; wearable telecommunication apparatus; multicore processors; application-specific integrated circuits (ASICs); integrated circuits embedded with software; signal processors; digital signal processors (DSPs); vector processors; vector Signal processors; communications processors; network processors used in network and telecommunications equipment; application-specific hardware

accelerators; wireless baseband processors; base stations on a chip, namely wireless base stations on a chip; integrated circuits, namely system basis chips and systems on a chip (SOC); multicore microcontrollers; semiconductor chip sets comprised primarily of semiconductor chips; integrated circuit modules in the form of semiconductor packages and packaging, namely redistributed chip packaging (RCP), and systems-in-package (SiP); radio frequency (RF) power transistors; radio frequency semiconductors; sensors, namely, inertial sensors, pressure sensors, magnetic sensors, touch sensors all for use in automotive, consumer, and industrial applications; proximity sensors; radar sensors; capacitive sensors; acceleration sensors; gyro sensors; sensors for computer interfaces featuring software, firmware and electronic integrated circuit chips; sensor systems comprised of sensors, computer software, microprocessors, microcontrollers, and logic or wireless protocols for enabling functionality of sensors for use in automotive, consumer, and industrial applications; electronic test instruments for developing and testing microprocessor-based systems;

semiconductor memories;
semiconductor devices,
microcontrollers, integrated circuits,
circuit boards, chipsets, all for
management of operating frequency,
voltage and power, optimization of
static and dynamic power, power
management, power optimization or
power reduction; semiconductors,
sensors and software for use in
automotive, consumer, aerospace,
military, cellular and mobile
communications, networking, motor
control, smart energy, and industrial
applications; semiconductors and
software for use in healthcare and
medical applications; semiconductors,
sensors and software for use in
wireless connectivity, battery
management, smart grid, smart
metering applications, engine control
units (ECUs) and tire pressure
monitoring systems (TPMS);
microcontrollers, firmware, sensors,
and radio frequency (RF) and analog
circuitry devices for use with energy
efficient wireless chargers; printed
circuit boards namely evaluation
boards and reference design kits
consisting of software for
semiconductors, sensors and software;
semiconductors and software for use in
portable medical devices, diagnostic

and patient monitoring devices, therapy
devices, and medical imaging devices;
computer application software, namely,
computer software for use in
applications for multimedia, graphics
video, audio and numerically intensive
computations; computer network
switching software; computer
convergence network software;
computer network collaboration
software; quality of service software;
network access software; networking
software for operation of chipsets;
networking software for content
processing; computer software,
namely, firmware, applications and
development tools, for use in network
content processing; failover prevention
software; stateful packet inspection
software; stateful application inspection
software; enterprise security software;
wireless radio controller software;
command line management software;
voice over IP software; video over IP
software; networking and security
software for use with unified threat
management equipment, gateways,
integrated access devices, routers,
switches, controllers, base stations,
hubs, and security appliances; utility
software for facilitating computer use at
remote locations and for facilitating
communications among mobile users

over networks; computer software for providing security to remote users and for implementing computer, software, and network security measures for remote users; component-based software modeling tool featuring a graphical user interface, automatic code generators and built-in knowledge-base for use in the rapid design, development, implementation, verification and optimization of embedded applications; software for use in developing other software titles; downloadable, searchable electronic publications, namely reference manuals, user guides, application notes and product specifications on the subject of semiconductors, sensors and software; user manuals in electronic format supplied with the foregoing.;

Class 38: Providing information in the field of telecommunications and telecommunications information relating to wireless communications and mobile technologies; consulting in the field of telecommunication services, namely, transmission of voice, data, and documents via telecommunications networks;

Class 42: Providing information in the field of computers, computer software and computer systems; providing

information in the field of design and development of computer data networking; providing information in the field of network security and computer security; design for others of integrated circuits, semiconductors, microprocessors, computer hardware and software, and communications software and networks; developing, designing and testing semiconductors, semiconductor devices, integrated circuits, microcontrollers, processors, radio frequency (RF) devices, sensors and software, electro technical and electromagnetic modules and their parts and building elements, data storage apparatuses, interfaces, smart cards, controllers for smart cards, controllers for RFID chips and tags for others; computer software development in the field of mobile applications; design and development of wireless communications systems for transmission and reception of voice, data and video; design and development of battery charging technology; design and development of data networking systems; design and development of network security and computer security systems; design and development of computer hardware and software for the operation and control of drones; design and

development of computer hardware and software for the operation and control of robots; design and development of computer hardware and software for the operation and control of automobiles; cloud computing featuring software for transferring, storing converting and displaying medical device data; developing wireless power transfer technology for use in charging vehicles; platform as a service (PAAS) featuring computer software platforms for use in developing, programming, building, and prototyping IOT (internet of things) devices; platform as a service (PAAS) featuring computer software platforms for wireless acquisition, transmission, conversion and storage of medical device data; providing technical information in the fields of semiconductors, semiconductor devices, integrated circuits, microcontrollers, processors, radio frequency (RF) devices, sensors and software; consulting in the field of telecommunications technology; design and development of wireless communications systems for authentication purposes; providing temporary use of online non-downloadable software applications, development platforms, and

development tools that enable software developers to develop, program, build, and prototype software for integrated circuits, chips and data processing equipment; computer programming services; research and design of antennas for scanning, reading and interpreting RFID chips and tags; research and design of NFC (near field communications) apparatus, instruments and equipment; advisory services in relation to all the above. in the name of **QUALCOMM INCORPORATED, a Delaware corporation, of 5775 Morehouse Drive, San Diego, CA 92121, United States of America.** Address for Service: Adams & Adams, 12 Love Street, Windhoek.

2018/2542 in classes:

Class 9: Computer hardware and software (recorded and/or downloadable) for facilitating and administering payment, banking, credit card, debit card, payment card, automatic teller machine, stored value,

electronic funds transfer, electronic payments, electronic processing and transmission of bill payment data, cash disbursement, transaction authentication, routing, authorization and settlement services, fraud detection and control, disaster recovery and encryption services; telecommunication and electrical apparatus and instruments, namely, apparatus for the recording, transmission and reproduction of data including sound and images; accounting machines; apparatus for tracking, management and analysis of financial accounts via a global computer network; computer hardware and software, namely, for the development, maintenance and use of local and wide area computer networks; systems for reading memory cards and systems for reading data in memories, namely, integrated circuit memories and banking card memories; downloadable electronic publications; printing apparatus including printing apparatus for data processing systems and financial transaction systems; encoders and decoders; modems; computer hardware and software for facilitating payment transactions by electronic means over wireless networks, global computer networks

and/or mobile telecommunications devices; computer hardware and software for the creation of encryption keys, digital certificates, and digital signatures, computer software for secure data storage and retrieval and transmission of confidential customer P.O. Box 185 Windhoek Namibia information used by individuals, banking and financial institutions; computer software and hardware that facilitates the identification and authentication of near field communication (NFC) devices and radio frequency identification (RFID) devices; computer hardware and software comprising a digital wallet that stores customer account information to access coupons, vouchers, voucher codes and rebates at retailers and to obtain loyalty or monetary rewards that can be credited to their accounts; downloadable computer programs and application software for mobile phones and other digital devices comprising a digital wallet that allow users to access price-comparison information, product reviews, links to the retail websites of others, and discount information; software application for use in connection with contactless payment terminals for the purpose of allowing merchants to accept contactless

mobile commerce transactions, contactless presentation of loyalty credentials, and contactless redemption of coupons, rebates, discounts, vouchers and special offers; software application that allows merchants to deliver coupons, rebates, discounts, vouchers and special offers directly to the mobile telecommunications devices of consumers delivered by contactless RFID or NFC communications; software application that allows merchants to deploy smart posters in retail and wholesale in-store locations that consumers can tap with their mobile telecommunications devices to access coupons, rebates, discounts, vouchers and special offers delivered by contactless RFID or NFC communications; integrated circuit chips for use in mobile phones and NFC and RFID devices; magnetic encoded cards and cards containing an integrated circuit chip ("smart cards"); security encoded cards; cards encoded with security features for authentication purposes; cards encoded with security features for identification purposes; hologram impregnated cards (encoded); charge cards, bank cards, credit cards, debit cards, chip cards, stored value cards, electronic data

carrier cards, payment cards and payment cards all encoded; banking cards, namely, magnetically encoded banking cards and banking cards using magnetic memories and integrated circuit memories; payment card readers; magnetic coded card readers, electronic data carrier card readers, electronic encryption units; computer hardware and software for use in the financial services, banking and telecommunications industries; computer software designed to enable smart cards to interact with terminals and readers; computer chips embedded in telephones and other communication devices; telecommunications equipment; point of sale transaction terminals and computer software for transmitting, displaying and storing transaction, identification and financial information for use in the financial services, banking and telecommunications industries; radio frequency identification devices (transponders); electronic verification apparatus for verifying authentication of charge cards, bank cards, credit cards, debit cards and payment cards; cash dispensing machines; computer peripheral devices and electronic goods, namely, calculating machines,

electronic organizers, electronic notepads, pocket planners, mobile telephones, mobile telephone handsets, tablet computers, digital readers and personal digital assistants (PDAs) and alarms; mouse pads; fire-extinguishing apparatus; parts and fittings for all the aforesaid goods;

Class 35: Advertising; business management; business administration; office functions; offering for sale and the sale of goods in the retail and wholesale trade; including: business advisory services; business investigations; commercial information agencies; presentation of goods on communication media for retail purposes; price comparison services; organization of exhibitions for commercial or advertising purposes; marketing consulting services; market research services; tracking, analyzing, forecasting and reporting cardholder purchase behavior; promoting the sale of the goods and services of others by means of rewards and incentives generated in connection with the use of credit, debit and payment cards; business administration of loyalty and rewards programs; commercial, industrial and business management assistance; business appraisals; advisory services for business

management; preparation of statements of accounts; book-keeping; business research; public relations; publication of publicity texts; issuing of publicity leaflets; retail services provided through mobile telecommunications means in connection with the provision of credit, debit, and payment cards; retail services provided on-line, through networks or other electronic means using electronically digitized information connected with the provision of credit cards and debit cards; computer database management; promoting concerts and cultural events of others; organization of expositions having commercial or advertising purposes; advertising for transport, travel, hotels, lodging, food and meals, sports, entertainment and sightseeing; providing information regarding purchase of goods and services on-line via the Internet and other computer networks; financial records management; information, advisory and consultancy services related to all the aforesaid services;

Class 36: Insurance; financial affairs; monetary affairs; real estate affairs; including: financial consultancy; financial information; financial sponsorship; financial services,

namely, banking services, credit card services, debit card services, charge card services, pre-paid card services offered through cards with stored value, electronic credit and debit transactions, bill payment and presentment services, cash disbursement, check verification, check cashing, deposit access and automated teller machine services, transaction authorization and settlement services, transaction reconciliation, cash management, consolidated funds settlement, consolidated dispute processing, financial information with respect to data repository and client profile information services, funds movement services in the field of payment cards, electronic payment processing services, payment transaction authentication and verification services, value exchange services, namely, secure electronic cash transactions and electronic cash transmissions over public computer networks to facilitate electronic commerce; providing financial information, namely credit and debit card data and reports; electronic funds transfer and currency exchange services; financial assessment and risk management services for others in the

field of consumer credit; dissemination of financial information via a global computer network; financial information and advisory services regarding all of the foregoing services; the provision of financial services for the support of retail services provided through mobile telecommunications means, namely, payment services through wireless devices; the provision of financial services for the support of retail services provided on-line, through electronic networks; financial analysis and consultation; processing services for financial transactions by card holders via automatic teller machines; the provision of balance details, deposits and withdrawals of money to card holders via automatic teller machines; travel insurance services; issuing and redemption of travelers cheques and travel vouchers; payer authentication services; verification of financial information; maintenance of financial records; stored value electronic purse services; bill payment services provided through a website; electronic banking via a global computer network; financial clearing house services; inter-bank transfer services, namely, direct bank-to-bank electronic transfers of money and providing bank account information by

telephone; financial services, namely, the provision of contactless mobile payments through merchants at retail, online and wholesale locations; financial services, namely, providing a cloud-based digital wallet that stores customer account information to access coupons, vouchers, voucher codes and rebates at retailers and to obtain loyalty or monetary rewards that can be credited to their accounts via a cash-back system; real estate property services; real estate valuations; real estate investment management; real estate investment services; real estate insurance services; real estate financing; real estate brokerage; real estate appraisals; real estate agency services; evaluation of real estate; real estate administration; administration of financial affairs relating to real estate; provision of real estate loans; financing services relating to real estate development; financial brokerage services for real estate; capital investment in real estate; commercial property investment services; financial services relating to the acquisition of property; financial services relating to the sale of property; leasing of real estate property; estate management services relating to transactions in real property; valuation of property;

property portfolio management; mortgage financing and asset securitization; consulting services regarding payment solutions, banking, credit cards, debit cards and payment cards; information, advisory and consultancy services relating to all the aforesaid services;

Class 38: Telecommunications; including: mobile telecommunication services; Internet based telecommunication services; data communication services; electronic data transmission over a global remote data processing network, including the Internet; services for the transmission, provision or display of information from a computer-stored data bank or via the Internet in the field of financial services; transmission of data through the use of electronic image processing by mobile link; electronic mail, message sending and receiving services; television, radio and Internet broadcasting services; providing multi-user access to a secure computerized information network for the transfer and dissemination of a range of information in the field of financial services; prepaid telephone calling card services; information, advisory and consultancy services relating to all the aforesaid services and 42: Scientific and technological

services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; including: design and development of computer hardware and software; conversion of data or documents from physical to electronic media; computer hardware and software consulting services; computer programming; support and consultation services for managing computer systems, databases and applications; providing temporary use of nondownloadable software and applications for managing, locating, activating and revoking authentication and digital credentials of near field communication (NFC) devices; design, development, maintenance and update of computer hardware and application software for mobile digital devices; design, development, maintenance and update of nondownloadable computer programs and application software for mobile phones and other digital devices that allows users to access coupons, sales and promotion offers, special offers, vouchers, voucher codes, rebates, product information, price-comparison information, reviews, monetary rewards, links to websites, and

discount information; application service provider (ASP) featuring software for receiving, transmitting and displaying coupons, sales and promotion offers, special offers, vouchers, voucher codes, rebates, product information, price-comparison information, reviews, monetary rewards, links to websites, discount information, and receiving and transmitting data for the purchase of goods and services; application service provider (ASP) services featuring social networking software; graphic design for the compilation of web pages on the Internet; creating and maintaining web-sites; hosting the web-sites of others; computer and Internet related services, namely, providing on-line electronic databases via a global computer network in the field of identity authentication and verification; computer and technology services for data encryption and decryption of financial information, digital signature authentication services, and digital certificate validation, verification, authentication, issuance, distribution and management; technical consultation services in the fields of computer programming, financial computer networks, data processing, secure

communications, data encryption and decryption and local area network security; dissemination of information over a global computer network in the fields of computer software, computer hardware, financial computer networks and local area networks; data processing and data verification services; data storage and retrieval services; data repository and client profile information services; leasing access time to a computer database; information, advisory and consultancy services relating to all the aforesaid services in the name of **MASTERCARD INTERNATIONAL INCORPORATED, a Delaware corporation, of 2000 Purchase Street, Purchase, New York 10577, United States of America.** Address for Service: Adams & Adams, 12 Love Street, Windhoek.
