Title: ABA CROSS	
ABA Cross is an ergonomic carrying system for children of all ages. It's available in three sizes (small, medium, Large). It's strong and stable enough to carry big and heavy non-walking children up to 25kg so that it's suitable for kids with physical disabilities as well. This invention is an alternative transport possibility for families who have to carry a non-walking baby or child without other medical equipment (e.g., wheelchair) due to life circumstances (no equipment existent) or the infrastructure of Namibia (no barrier-free environment / no transportation of bulky equipment in common public transport systems). It's supporting the positioning of the child in a therapeutic way and supports the back and the posture of the caregivers.
